Flags of Equatorial Cyberspace

Each of the countries on the fictional continent of Equatorial Cyberspace, which is located between here and there, have a national flag. Some other organizations in Cyberia also have flags.

Flags of Cyberian Nations

Brynania: The flag of Brynania is coloured blue to signify justice, as well as the sky and waters of the Gulf of Cyberia. The origin of the dark amber circle is unknown. Some histories suggest that it signifies the sun, others insist that it is a representation of the Sacred Toasted Bagel of the Brn.

Concordia: Red bars on either side of the flag represent strength and perseverance. A white and red coat of arms in the centre, adapted from the British colonial flag from before independence in 1962, represents the country's historical ties to the United Kingdom and the present-day British Commonwealth.

Icasia: The Icasian flag is mainly black, with a silouetted palm tree in a green spotlight, surrounded by five eight-pointed yellow stars. These symbols represent the famous beaches of Icasia and the five traditional provinces in that country.

Ruritania: Three red stars (symbolising the honour, courage and strength of the state), are set upon two equal bands of green and yellow (symbolising the rich resources of the state, both above and below ground). The bands are set on a field of deep blue (symbolising the Commonwealth heritage of Ruritania, as well as the geographical position of the state in the Gulf of Cyberia).
